Sunlit Table - original score draft 01

C major | 4/4 | quarter = 84 | straight eighths | 8 bars = 22.86 seconds

DRAFT: musical review pending. Role names are orchestration intent, not demonstrated instrument quality.

Phrase brackets (dashed) correspond to MusicXML slurs. Curved lines below same-pitch notes are ties.

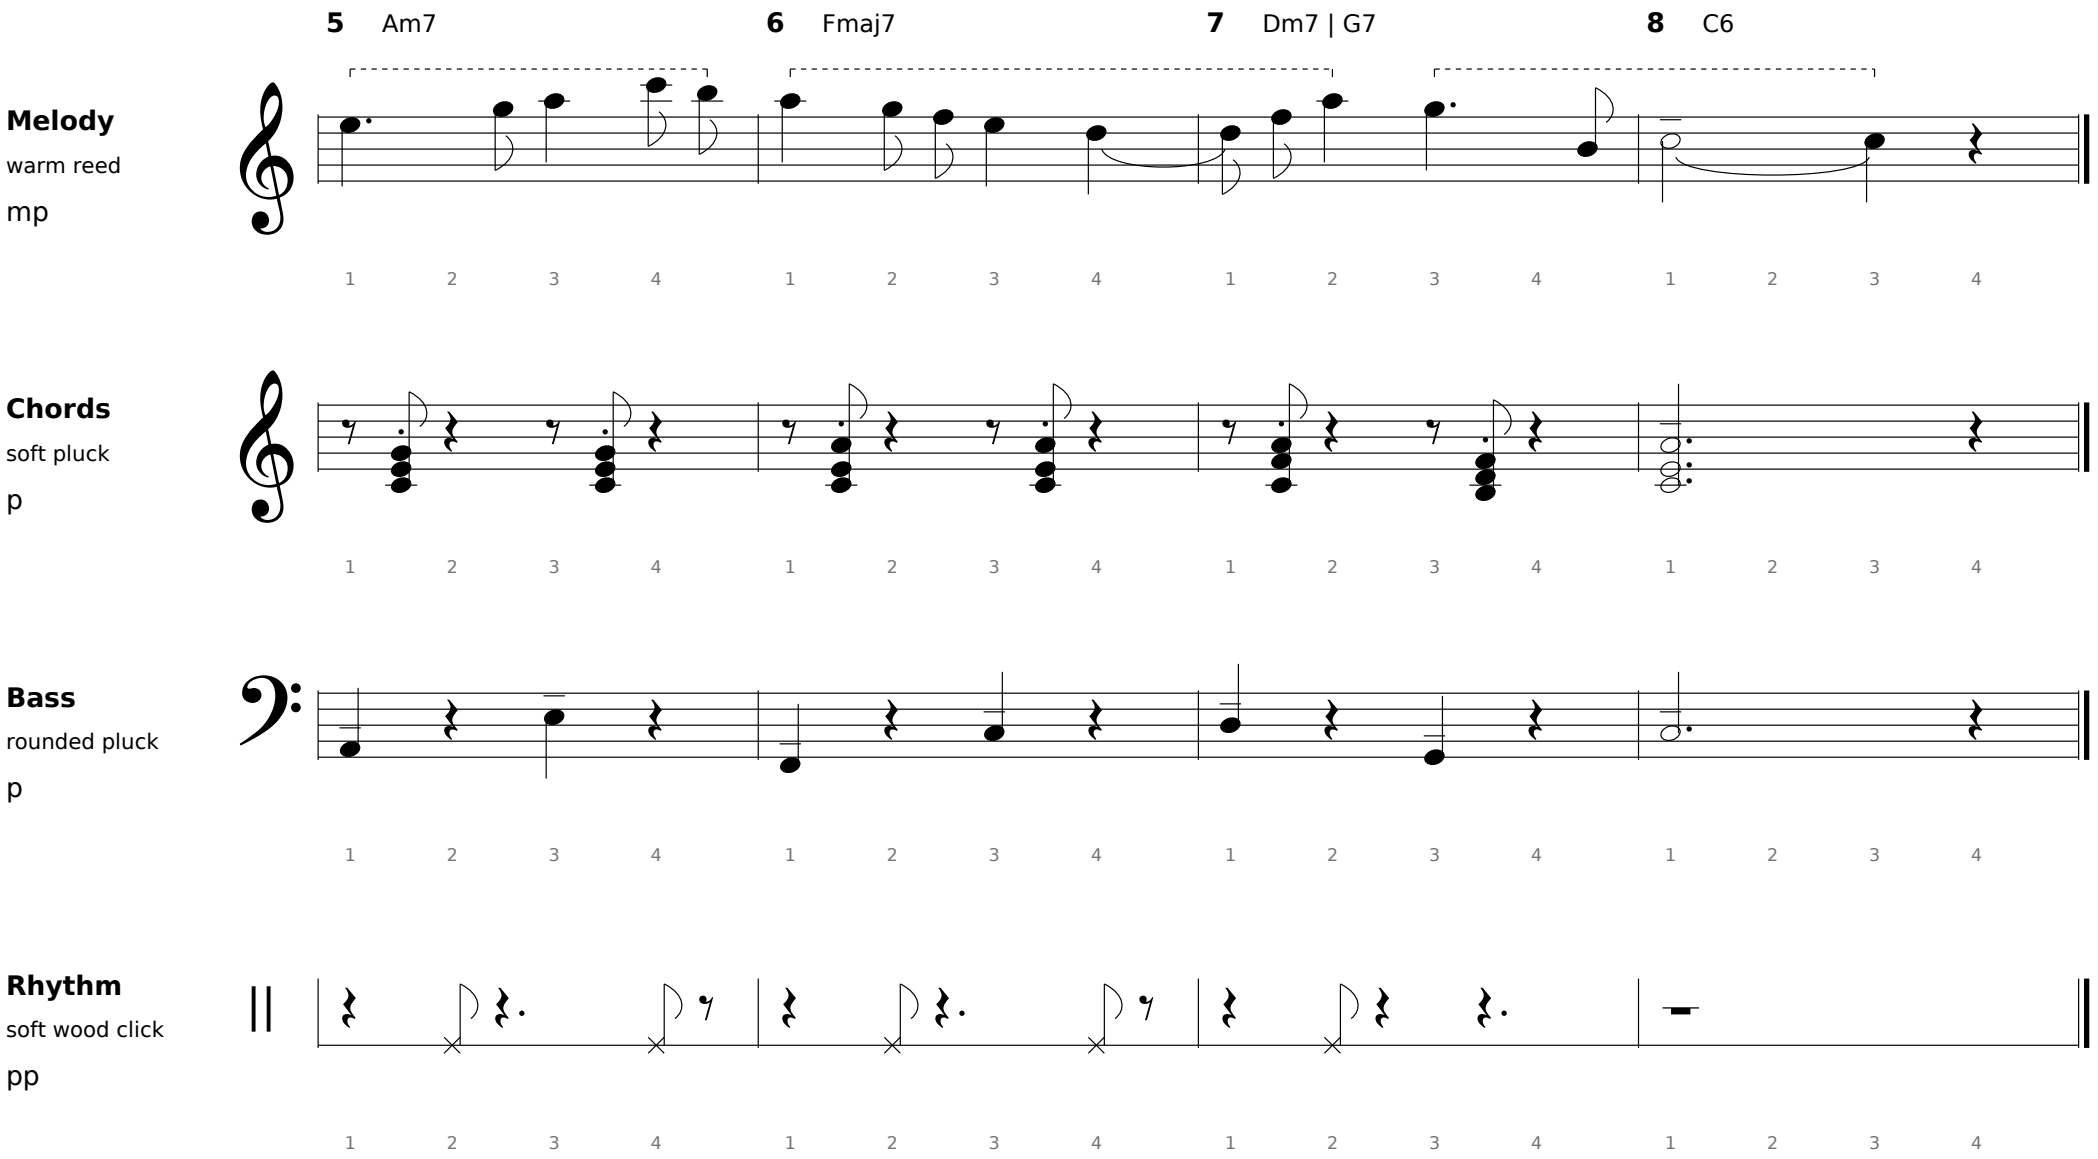

Small numbers mark beats 1-4. Dots = staccato; dashes = tenuto. Percussion: unpitched side stick.

Hand-laid-out reference notation; editable MusicXML and exact event ledger are authoritative. Page 1/3

Phrase and performance review

Original notes were composed directly; no ACE-Step audio was transcribed.

1. C6

The E-G-A cell opens upward; the stepwise fall leaves a question on D. Offbeat chords leave the tune uncluttered.

2. Dm7 | G7

F-E-D contracts the cell; B over G7 creates the dominant question. An eighth rest makes space before the D pickup.

3. C/E | F6

The pickup rises to C6, the first crest. C/E turns into F6 under a gentle A-G-F descent.

4. Dm7 | G7

The ii-V answer ends on B, with a whole beat of melody rest. Two quiet accompaniment eighths hand the phrase onward.

5. Am7

The opening cell returns with a dotted-quarter start over Am7. C-B is a small upper-neighbour response, not a new tune.

6. Fmaj7

Fmaj7 supports the long A-G-F-E-D descent. D is a gentle added-sixth colour, tied across the barline into Dm7.

7. Dm7 | G7

The tie avoids a rigid barline reset. D-F-A outlines ii, then G and leading-tone B explicitly prepare the tonic.

8. C6

C resolves the leading tone. All pitched parts sustain through beat 3 and release at beat 4; percussion stays silent.

Melody mp; chords and bass p; wood clicks pp. Fixed 84 BPM, no random timing or velocity.

Final note-offs at 22.142857 s; final notated rest to 22.857143 s. Keep natural release tails in future audio.

This excerpt cadences to a stop. It is not yet a production loop, arrangement, mix, or instrument-quality approval.
